- Copy of Dam's papers if not PHAA listed/Registered
- All Imported horses – a copy of the current registration certificate (APHA, etc and HYPP test results)
- Completed registration application & Genetic testing form (both forms must be completed)
-

## REGISTRATION APPLICATION REQUIREMENTS

1. Service/Breeders certificate signed by owner/manager of sire. (for PHAA registered and listed stallions, this Certificate must be returned with the PHAA stallion breeding report)
2. If the Dam is AQHA or thoroughbred, a copy of the Dam's papers reflecting ownership must be supplied with this application; alternatively, they may be permanently listed with the PHAA. Mare Listing application forms are available on the PHAA website [www.painthorse.com.au](http://www.painthorse.com.au)
3. If the sire of the horse applying for registration is AQHA or thoroughbred, the stallion must be listed with the PHAA. Stallion listing forms are available on the PHAA website [www.painthorse.com.au](http://www.painthorse.com.au) A one-off \$220 fee is payable to list AQHA or thoroughbred stallions with the PHAA.
4. Set of four photographs – this application must be accompanied by four clear photographs showing the horse directly from each side, front and rear. Direct shots must be made; angle shots will not be accepted. Regular-sized photographs are preferred. Digital photographs can be emailed to [office@painthorse.net.au](mailto:office@painthorse.net.au). A jpeg format is preferred. Please provide additional close-up photographs if the horse has minimal markings, which need to be verified for registration. Wetting or shaving the area may be necessary to verify pink skin size. The registration certificate will be issued in accordance with the photographs submitted.
5. To register a horse, a person must be a financial member of the PHAA. The name of the individual applying for the registration of this horse shall be the same as that appearing on the membership card. If the name that appears on the front of this application differs from the name appearing on the membership card, then an additional membership is required.
6. This application must be signed by all owners; if joint owners, both nominees/owners must sign the applications.
7. It is a requirement that all horses be DNA tested at the time of registration.
8. All stallion registration is finalised until after receipt of the completed PHAA veterinary Certificate and the results of the DNA typing being received by the PHAA office. Stallions **MUST** not be used for breeding before the PHAA office completes the registration.
9. **IMPORTED STALLIONS** -applications must be accompanied by DNA typing (or an additional fee will be charged). Imported stallions must be shown to be HYPP negative. HERDA testing results must be provided before registration is completed.
10. **UNnatural MARKINGS** – Any horse that is found to have unnatural markings will be rejected for registration, and the owner may be barred from the PHAA. The PHAA shall have the option of sending a PHAA representative to collect hair samples and /or biopsies (by a licensed veterinarian) as a precedent right to registration for the horse to remain registered.
11. It is recommended that all horses whose pedigree including POCO BUENO bloodlines be DNA tested for the HERDA gene unless both parents have been tested and to be negative. Imported stallions must be HERDA tested prior to registration.
12. It is also recommended that the PSSM1 status of all breeding horses be determined.
